

CALCULUS VOCABULARY

1	absolute extrema	46	Fundamental Theorem of Calculus	91	quadratic
2	absolute value	47	graphical	92	quadratic formula
3	acceleration	48	greatest integer function	93	quartic
4	analytical	49	growth	94	quotient
5	area	50	hole	95	quotient rule
6	average velocity	51	horizontal asymptote	96	radical
7	axis of revolution	52	horizontal line test	97	range
8	cancellation	53	implicit differentiation	98	rationalization
9	catenary	54	increasing	99	regression analysis
10	chain rule	55	indefinite integral	100	relation
11	circumference	56	initial velocity	101	relative error
12	circumscribed	57	inscribed	102	relative extrema
13	coefficient	58	instantaneous velocity	103	removable
14	coefficient of determination	59	integration	104	Riemann Sums
15	composition	60	Intermediate Value Theorem	105	Rolle's Theorem
16	concavity	61	interval	106	secant
17	constant	62	inverse	107	secant line
18	continuous	63	iteration	108	secondary equation
19	converge	64	limit	109	sigma
20	correlation coefficient	65	linear	110	simplify
21	cosecant	66	logarithm	111	Simpson's & Trapezoidal Rules
22	cosine	67	Mean Value Theorem	112	sine
23	cotangent	68	monotonic	113	slope
24	critical number	69	natural logarithm	114	slope-intercept form
25	cube root	70	Newton's Method	115	SOHCAHTOA
26	cubic	71	nonremovable	116	solid of revolution
27	decay	72	numerical	117	solve
28	decreasing	73	odd function	118	square root
29	definite integral	74	optimization	119	Squeeze Theorem
30	difference	75	order of operations	120	substitution
31	difference quotient	76	ordered pair	121	sum
32	differential equation	77	origin	122	surface area
33	differentiation	78	parabola	123	symmetry
34	disc method	79	particular solution	124	system of equations
35	discontinuity	80	percent error	125	tangent
36	distance formula	81	perimeter	126	tangent line
37	domain	82	point of inflection	127	variable
38	equation	83	position function	128	vertical asymptote
39	even function	84	primary equation	129	vertical line test
40	exhaustion method	85	product	130	volume
41	explicit differentiation	86	product rule	131	washer method
42	exponent	87	propagated error	132	x-axis
43	expression	88	proportionality constant	133	x-intercept (zeroes)
44	Extreme Value Theorem	89	Pythagorean Theorem	134	y-axis
45	function	90	quadrant	135	y-intercept
