

INTERNET AND DISTRICT NETWORK ACCESS PERMISSION LETTER TO PARENTS

Dear Parent/Guardian:

The School District wishes to offer your child limited access to the Internet and other network-related activities. The Internet is a collection of thousands of interconnected computer networks. The vast amount of information contained within the Internet's libraries can provide valuable learning opportunities to students.

Your authorization is needed before your child may use these resources. The attached regulations for student use of computers, technology and the District Network should be read carefully and understood by all users. As parents/guardians, you should review it in detail with your children before they begin using the Internet and other network related activities in their classroom.

A limited filtering system is in place to prevent access to certain unacceptable sites on the Internet. However, it is important to understand that no solution is perfect and we cannot guarantee that students will only have access to educational materials. Ultimately, parents/guardians are responsible for setting and conveying the standards that their child should follow. To that end, the School District supports and respects each family's right to decide whether or not to authorize Internet and other network related activities access.

If you agree to allow your child to have access to the Internet and other related activities, sign the enclosed Acceptable Use Agreement and return it to your school.

Sincerely,

Dale F. Kruse, Ed. D.
Superintendent
