Math

We will be starting with place value these first couple of weeks. Some of this should be a review from 3rd grade, but we will go on to discuss the hundred thousands place.

Social Studies

We will be starting with a look at the United States, the land and the people. We will focus briefly on the landforms, and climate of the U.S. We will then be studying Lewis and Clark at the beginning of September.

Science

The first area we will be looking at is science investigations and a scientific method. We will be able to have distance learning lessons from the ESU. The kids love this!
