Runza Restaurant Review

Runza may be a generic fast food place, but the food and service makes up for it. I went to Runza a round lunchtime, and I was greeted with the warmth of the store and the pleasant smile of the staff. The floor and counter were very clean, and the aroma of burgers and chile filled the air. I ordered a hamburger with ketchup, mustard, and pickles. The bun was very fluffy and very flavorful. The burger was well-done and the crunch of the pickles was amazing. I also ordered a medium Dr. Pepper soda and that made my meal even more enjoyable. My meal came with a cup overflowing with golden french fries with the perfect amount of salt seasoning. They were steaming hot and cooked just right. The very nice young lady at the counter came over after I was done and she kindly offered to take my tray. This Nebraska restaurant is perfect for a quick, quality bite to eat. I believe that you will have a very enjoyable time at this eating establishment. I rate this restaurant 5 stars.
